Book Two was as Good as Book OneBy DebbyStephen Jurgens has lived his life pretty much alone since his parents kicked him out because they did not approve of his gift. He has a built a successful life for himself as a psychic as well as a consultant for Revelations. Maddox Blackwood, Alpha of the Pontiac Pack, is the one man that Stephen knows could destroy him. Any possibility of a relationship died after a massive rejection eight years ago. Maddox is ready to claim Stephen but is Stephen ready for that?That question is tabled when a call for help comes from a cougar pride. Member of the pride are dying for no apparent reason. Stephen and Maddox are among those that respond to the call. As they investigate, Stephen realizes he may be dealing with an ancient evil. It will require all he has to keep himself and the others alive. Maddox knows he will do all he can to keep Stephen alive.This is book two in the Revelations series. It is exciting with non-stop action and paranormal entities that are deadly, to say the least. Stephen and Maddox had a contentious relationship but Maddox was determined to resolve their issues. Personal and professional lines cross as these two work to discover the cause of the cougar pride issues while not losing site of their own potential future. JJ Black has created an amazing series which should be read by everyone who loves paranormal MM stories and even those who do not because after reading this book, you will become a fan.0 of 0 people found the following review helpful. Psychic says is awesomeBy JoWow. Loved the first book in the series and I have just finished this one. Brilliant. I think Stephen and Maddox are great. I hope there's going to be a third in the series.1 of 1 people found the following review helpful. Overall, a good storyBy Jacquel've been on this human/shifter romance kick lately so when I read the blurb for Psychic Says I felt it was right up my alley. Human psychic, Alpha wolf shifter, local cougar pride in trouble, all which really caught my fancy. Once I started reading and found Stephen the human psychic could sense and talk to spirits, I was really drawn in. What could a psycho do to help shifters? What could hunt shifters and why? Moreover, what happened in Stephen's and Maddox's past that made Stephen gun shy? Lots of potential for me to get lost in here.Irsquo;m feeling a bit ambiguous about this book. On one hand, I really liked it. I found the whole psychic and mystery side to the story very good. It offered up quite the suspense and intrigue of the edge of your seat variety that I get a kick out of. The whole ghost, necromancer, who-done-it was top notch. As for the characters, separately, I enjoyed them. I was thrown a bit about the pronunciation of Stephen. Is it pronounced STEE-ven or STEF-en because at times he was called Steph, which threw me all out of whack. Even the secondaries were entertaining. Add into it this was a second in a series, I never would have guessed it! It worked so well as a stand-alone. Now for what I found bothersome: Maddox and pursuance of Stephen. You are an Alpha...got it. He is your mate...got that, too. He was just very persistent, constantly persistent,

beat the dead horse persistent about the Alpha and mate bits that it got to be very repetitive and eventually too persistent for me. See how I droned on about his persistence and how bothersome I got? Yes, that's how I felt about Maddox. It didn't feel it made a good balance with the mystery that was going on. Still, the story was good. I just could have used just a little bit less of the 'me Alpha, you mate' business and more of the 'And the killer is...'As I mentioned before, this was my first book in the Revelations and found it to be a very good stand-alone. It is also my first by author J.J. Black and I'd be willing to read more of her works. As for recommending this book, I would say go ahead. Overall, it was a good story, just with a bit of persistence I wish was a bit more toned down. It certainly will have you thinking about ghosts a bit differently.I received this book from the JeepDiva for the express purposes of an honest review. The opinions and rating of this review are solely mine.Stars - 3, Flames - 3

A spirit is a terrible thing to waste.Stephen Jurgens has always gone his own way, both professionally and personally. Disowned as a child by parents who did not approve of his gifts, Stephen struck out on his own and, along the way, became a highly sought-after psychic. Between his own private clients and the consulting work he does for Revelations, business has never been better. If only his love life was meeting with as much success. Despite his efforts to reach out and enjoy the dating scene, his heart remains drawn to only one man;Maddox Blackwood.Alpha of the Pontiac wolf pack, Maddox Blackwood is the only man Stephen has ever met who has the power to destroy him. Their initial meeting led to a rejection of epic proportions that left Stephen wary of any kind of romantic entanglement. Now, eight years later, Maddox is back and ready to claim Stephen as his own, as he should have done all those years ago. The only question is, can Stephen find it in himself to forgive the past and accept the future Maddox is offering?All thoughts of mating are put on the back burner when Revelations receives a call for help from a local cougar pride. People are dying, but are their deaths as mundane as they appear or is something more nefarious plaguing the Pride lands? With their investigation underway, Stephen and his team soon discover that things aren't always what they seem, and just because you don't see something, doesn't mean it isn't hunting you.
